

LMS Enhancement Project — AY 2025–26

Feature-wise comparison of current status and proposed changes

Feature	Current Status	Changes Needed
Learner Feedback	Collected externally via Google Forms	Integrated forms inside LMS, automated reminders, customizable forms, admin approval before sharing with faculty
Calendar View	No calendar feature exists	Daily/weekly personalized schedule, real-time updates, clickable sessions, automated reminders for learners & faculty
Exams	Only MCQ & Essay formats; no practice sessions for private courses	Add true/false, fill-in-blanks, short answer, practical formats; extend practice to private courses; automated feedback & analytics
Batch Status	No batch status marking available	Active/Inactive/Completed labels, auto-status change on end date, custom status types (On Hold, Cancelled, etc.)
Proctor Mode	No proctoring feature exists	Live video/audio monitoring, AI surveillance, screen recording, identity verification, lockdown browser, real-time alerts
In-House Messenger	No internal messaging; relies on external tools	Group & individual messaging, scheduled messages, attachments, read receipts, push notifications, message history & search
Course Dripping	All content available immediately on enrollment	Phased content release by date or progress milestones, learner visibility control, pacing analytics
Faculty Dashboard	Only used to start classes; minimal info visibility	Calendar integration, student progress tracking, syllabus checklist, class time confirmation for records & payments
Community Forum	Managed via WhatsApp/Telegram externally	In-LMS forum with course-wise categories, moderation tools, thread notifications, search, peer interaction
Online Class Recording	Full recordings with unnecessary segments; no auto-trimming	Zoom integration for auto-trimming silent/inactive segments, storage optimization, admin-configurable trimming rules
Learner Dashboard	Basic exam status and simple performance view; no graphs	Visual charts for exam scores, attendance trends, mentorship engagement; filters by date/subject; exportable reports
Course & Batch Assigning	No structured assignment feature in LMS	Structured assignment workflow within LMS for courses and batches
